

## APPLICATION FOR TESTING OF DRINKING WATER

<b>To be completed by the customer:</b>		<b>To be completed by the laboratory:</b>	
Customer name:		<b>Registration number of sample(s):</b>	
Registry code (company) / Personal identification code (private person):			
Name of the contact person:			
Postal address:		Date and time of arrival of samples:	
Postcode:	Phone:	Name and signature of the receptionist of the samples:	
E-mail address:			
		Name/signature of the department representative:	

<b>Reporting of the test results:</b> <input type="checkbox"/> by regular mail <input type="checkbox"/> the customer will pick up the test report for the laboratory himself <input type="checkbox"/> digitally signed test report by email	<b>Payment:</b> On site <input type="checkbox"/> in cash <input type="checkbox"/> with bank card <input type="checkbox"/> invoice, e-post address:
--	--

Sample information presented in the test report:	
Sample no.	SAMPLING POINT
1	
2	
3	
4	
5	

<b>Sampling time (date, time):</b>		<b>Name of sampler and attestation certificate no, if applicable:</b>	
------------------------------------	--	---	--

Sample no	ROUTINE CONTROL <small>(Regulation No. 61 of the Minister of Social Affairs)</small>	Sample no	ADDITIONAL PARAMETERS <small>(Regulation No. 61 of the Minister of Social Affairs)</small>	Sample no	ADDITIONAL PARAMETERS <small>(Regulation No. 61 of the Minister of Social Affairs)</small>
	<i>Escherichia coli</i>		Ammonium		<b>Elements*:</b> <input type="checkbox"/> potassium <input type="checkbox"/> sodium <input type="checkbox"/> calcium <input type="checkbox"/> magnesium <input type="checkbox"/> arsenic <input type="checkbox"/> aluminium <input type="checkbox"/> molybdenum <input type="checkbox"/> cadmium <input type="checkbox"/> mercury <input type="checkbox"/> lead <input type="checkbox"/> copper <input type="checkbox"/> zink <input type="checkbox"/> nickel <input type="checkbox"/> manganese <input type="checkbox"/> chrome
	<i>Coli-form bacteria</i>		Nitrites		
	Colony count at 22 °C		Nitrates		
	Electroconductivity		Chlorine		
	pH		Chlorides		
	Colour		Chemical oxygen demand		
	Smell		Sulphates		
	Taste		Hardness		
	Turbidity		Alkalinity and bicarbonates		
			Fluorides		
			Phosphates		
	<b>ADDITIONAL PARAMETERS</b>				
	<i>Pseudomonas aeruginosa</i>		Dry extract		
	Enterococci		Hydrogen sulphide		
	Colony count at 37 °C		Boron		
	<i>Clostridium perfringens</i>		Cyanides		
			Iron		

<b>Remarks (including other additional parameters):</b>
---

\* mark as required

**Remark:** The water sample is taken in two bottles: a 0.5 liter laboratory sterile bottle for microbiological parameters and a 1.5 liter clean bottle for chemical parameters.
